MEMO

To: Members of the FEPC .  
From: Tom Cameron  
Date: March 13, 1978  
Subject: The FERA Proposal

Attached is a copy of a proposal which FERA sent to FIPSE asking for funds of \$64,000 to conduct the research project we have been asked to join. You'll note that the preliminary funding came from EXXON, but that grant money for the research project will come from FIPSE. This proposal answers some of our questions, so I have not sent the letter which the committee authorized. We hope to have answers to the other questions by meeting time.

Susan Wittig, from whom I got a copy of the proposal, has asked to meet with us on Wednesday to discuss the project. She has talked with Meeker a number of times, and she may have other information about the project at that time.

Please read through the attached carefully. We will discuss this item second on the agenda Wednesday (the library item is first) so that our guests will not have to stay for the whole session.
